inandout teamchallenge – only for real teamplayers!

Although this is just the right event to go for broke, not only time and place matter. The main focus is on the inspiring group experience.

In groups the participants follow a star-shaped course. Every team member undertakes a different section and exercise. Is the task solved, it's another team member's turn. The transition area is in the centre of the star. The question is: Who's going to be first?

The tasks can be chosen at will. Here some examples:

- ▶ Ski race
- ▶ Snow golf
- ▶ Snowshoe obstacle course
- ▶ Cross country cup
- ▶ Hit a target with snow balls
- ▶ Sleigh run

Facts in a few words:

Bavarian curling – don't put it on ice

Fun on the ice takes the centre of stage. But it's still a competition – each team wants to be the winner. Bavarian Curling is suitable for the most different teams, because sporty ability is not the main focus.

Curling is suitable for a variety of teams, because the focus is not on the athletic ability.

The participants will be introduced to the rules and techniques of Bavarian curling. After a short training, an exciting tournament follows.

Curling seems to be a little bit more sporty. But also here you can celebrate success after a short time. You'll wipe industriously with the broom to bring the stone in the centre...

Facts in a few words:

- Previous knowledge is not required. The physical achievement is not the main focus
- For groups up to 60 persons, we recommend max. 10 persons per guide
- **Approximate costs:** CHF 120.00/instructor per hour. Please ask for your individual offer
Additional costs for rink rental, and material, possibly for transport etc.

Treasure Hunt and GPS – follow a hot track

Sense of orientation is demanded! Whether with the aid of a map, a GPS or photos – it's always about being the first who finds the position and who can put all the clues together to find the treasure.

The participants search in the town or in natural country areas for a certain amount of points where they get another clue or a part of the coordinate map where the treasure is placed. If you've done everything right, the treasure is within your grasp and the reward soon in sight.

If all members are working together, there will be a profit for everyone and the experience will sustain the team spirit.

- ▶ Treasure hunt by foot, with snowshoes or public transfer
- ▶ Treasure hunt through the ski area, including a lot of snow sport

Especially informative:

It's great to make a treasure hunt with the use of **GPS and satellite navigation**. You will be astonished and over-awed. Just wait and see.

Build a rope bridge – moving on to new pastures

Only with a bridge you'll get to the other side – at best with your own bridge. After a short instruction in the art of rope bridge construction, you start with anchoring, kinking, tensioning etc.

First the construction seems a little tricky with the short manual... but the task gets easier when more heads are thinking together.

As reward- the shaky walk over the home made bridge allures and finally the bridge will be inaugurated by a good bottle of wine.

Facts in a few words:

- Previous knowledge is not required
- Also perfect for small groups
- **Approximate costs:** From CHF 1'500.00. Please ask for your individual offer
